

CORNHOLE TOSS INSTRUCTIONS

1. Set the 2 cornhole boards approx. 8 metres apart with the front ends facing each other. If you have smaller children or less space put the boards closer together as needed. You can also have the boards facing the same direction if space is an issue
2. There should be 2 teams – each team containing 2 people, standing at the hole ends of the cornhole boxes on the same side of the boxes so no team has an unfair advantage
3. Each team has a set of 4 of the same colour bean bags
4. 1 person from the team elected to go first begins by throwing the bean bag from anywhere behind the front of their cornhole box towards the opposite cornhole box. The goal is to get the bag in the opposite hole
5. After the 1st throw, its 1 person from the opposite teams turn to throw
6. The game continues with alternating throws from the same 2 players until all 8 bags have been thrown
7. If a bag hits the ground before it hits the boards surface, the bag should be taken off the surface, it does not count.
8. After all bags have been thrown, the other partner on the first team throws the first of the remaining bags
9. The team who score the most points go first the next round
10. The game continues until one team reaches atleast 21 points

SCORING

- 3 points for bags in the hole
- 1 point for bags on the playing surface
- 1 points for bags hanging off the holes edge
- 1 points for bags hanging off the playing surface but not touching the ground
